Hill-Rom® Electric Stretcher

Go Beyond Mobility™

Hill-Rom’s Electric Stretcher provides the comfort of a hospital bed for those unexpected long stays. With positioning controls integrated into the siderails, patients are in control of their own comfort.

A rush to the operating room is not just about running down hallways and turning corners. It’s about the minute details that contribute to a safe and comfortable experience for both you and your patient.

Our stretchers provide more than mobility for your patients:

- A safe and comfortable patient experience
- Simple and safe maneuvering
- Durability to withstand your demands

Hill-Rom®

Our stretchers provide more than mobility for your patients:

- A safe and comfortable patient experience
- Simple and safe maneuvering
- Durability to withstand your demands
A Safe and Comfortable Patient Experience

Patients are spending more time on stretchers, and as a result, the patient experience, including pressure injury prevention, has become increasingly important.

- **Help prevent pressure injuries** through your choice of pressure redistribution surfaces.
- **Customize comfort** with electric patient positioning controls.
- **Prevent patient migration** with electric knee articulation.
- **Protect your patient’s hands** with bumper protected siderails.
- **Provide a gentle patient ride** with spring-loaded Steering Plus™ system that absorbs shock of driving over bumps and thresholds.
- **Allow for safe patient ingress and egress** with low height.
- **Provide a comfortable option** for patients to recover with Recovery Position.

Simple and Safe Maneuvering

Whether you’re making crisp turns down narrow halls, getting the stretcher rolling from a stop, or nestling it into a crowded elevator, our stretchers are ideal in any setting. Hill-Rom Stretcher are easy to maneuver to help reduce your risk of injuries.

- **Simple activation** requires less force to activate than Stryker’s Big Wheel.
- **360° maneuvering** with Steering Plus™ system grips the floor and reduces your turning radius.
- **Ease the burden off your back** with electric positioning controls.
- **Zero Transfer Gap** — OneStep® Tuck-Away Siderails for seamless patient transfers.
- **Obtain an immediate weight without moving your patient** with scale that memorizes last weight.

Durability to Withstand your Demands

At Hill-Rom, we understand that because caregivers have to do more with less, having a reliable and durable product is more important than ever.

- **700 lb weight capacity** for all stretchers
- **Compatibility** with lifts and overbed tables
- **Easy to clean** smooth deck and siderail design
